Medical.

Ayer's CATHARTIC PILLS.
Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the diseased humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease, and restore the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general debility, suffering, and distress. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deeper and dangerous disorders of the same kind. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure. Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forfeiting Merchant of St. Louis, Feb. 4, 1856.
DR. AYER: Your Pills are the paragon of all that are great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

As a Family Physic.
From Dr. E. W. Cartwright, New Orleans.
Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are gentle, and very effective. I have used them in my family for years, and they have been long and gratefully used in the action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Hendache, Sick Headache, Foul Stomach.
From Dr. E. W. Cartwright, New Orleans.
DEAR DR. AYER: I cannot answer you what complaint I have cured by your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on that effectual cathartic, and I sincerely rejoice that we have a believing, as I do, that your Pills afford us the best we have, for course value them highly.

PITTSBURGH, Pa., May 1, 1855.
DR. J. C. AYER: I have been repeatedly cured by your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M.D., Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms.
From Dr. J. C. Green, of Chicago.
Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best agents I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.
From Rev. J. V. Himes, Pastor of Advent Church, Boston.
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours truly, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system from bilious humors, and to relieve the blood. JOHN G. MEACHAM, M.D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, &c., &c.

From Dr. J. P. Vaughn, Montreal, Canada.
Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.
I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effective to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.
PULASKI HOUSE, Savannah, Ga., Jan. 6, 1855.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. I am a cold settled man, and have brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well, and I believe, I am now entirely well.

DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

Most of the Pills in market contain mercury, which, although a valuable remedy in small doses, is dangerous in a full pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for \$1.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

THE GRAND PROMOTERS OF HEALTH.
HOLLOWAY'S PILLS.

HOLLOWAY'S PILLS.
The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first principle of any function should be checked and set right by appropriate doses of these pills, which purify the blood, and strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.
This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, that it is almost needless to say a few words of its merits. In these diseases the bowels are either constipated or relaxed, and the system is in a state of derangement. These pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and all easy assimilation of food, and both physical and moral energy are increased.

Determination of Blood to the Head.
This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these pills will never fail to give tone to the stomach, rectify the derangement, and purify the blood. Vegetal food of light and airy character, and a moderate exercise, are also recommended by a course of this admirable medicine.

The Female's Best Friend
For all debilitating disorders peculiar to the sex, and every contingency, these pills are the best remedy. They are recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.
For all skin diseases, however inveterate, these pills are an sovereign remedy. While the pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and enters the system, as water saturates pebbles as salt penetrates meat. The whole physico-chemical system is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthma.
No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous pills. Even in cases where the first stage of asthma has appeared, these pills will be relied on as a certain and failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

THE BRITISH COLONIST.
Tuesday Morning, Nov. 17, 1868.
TO ADVERTISERS.
Transient Advertisements must be paid for in advance of insertion.
AGENTS.
Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest rates, and no exception will be made in future to this rule.

An anecdote is related by Charles Dickens, which was told at a meeting of sailors, held to discuss their grievances at Tower Hill. The narrator stated that on one occasion he was on board a ship during an epidemic of yellow-fever, and while down with the disease, awoke to find himself being sewn up in his hammock by the captain, preparatory to being buried in the usual manner at sea. He vigorously remonstrated, stating that he was not yet dead, but was told indignantly "that he was jolly particular as to a few minutes." Such scenes, we believe, have more than once occurred during the present epidemic of small-pox among the Indians. The person charged with their obsequies having in more than one instance attempted to box-up natives who had sufficient vigor to escape and barricade themselves in adjoining tenements, where the legally constituted sexton followed them, placing their coffins outside the door, telling them in unexceptional Chinook, that he would call for them at "tenass sun." The inhumanity and gross neglect of the welfare of the Indian population that have characterized the proceedings of the authorities during the present epidemic, are beyond anything we can find words to express, driven away as they have been from Victoria perishing, and scattering the pestilence broadcast all along the coast, thus entailing the extension of the disease to our young and thriving agricultural settlements at Saanich, Cowichan and Comox, where it is impossible to estimate the fearful results that are likely to accrue. Few among us would believe that while the disease was rampant among the aborigines an Indian Dance-house was nightly open, at which the nurse in charge of the Indian Small-pox Hospital was wont to trip it on the light fantastic and in more than one instance communicated the disease. Such details almost remind one of Defoe's graphic description of the horrors of the plague in London. The disease has now worn itself out among the Indians, having ceased for the want of fresh victims; their mortality has averaged about 98 per cent. At present the disease is extending among the white population, showing that it is impossible to neglect the interests of those around us without the great law of compensation stepping in; and that to tolerate a people living alongside of us in a state of barbarism, is attended by not only moral but physical retribution. The spread of the disease is partly owing to first vaccinations having been performed with lymph affording no protection, and no means of aggregation as regards those affected with the disease having been adopted. Numerous instances of people during convalescence appearing in public and thus spreading the disease, are well known, the regulations of the Municipal authorities as to reports being made by the physicians in attendance as to the names and localities of those affected having been partially ignored. We hope the Town Council will vindicate their authority, and not allow their Ordinance to become a dead letter. We hope also that a Health officer will be appointed to visit ships arriving, as we believe in this way the disease is being constantly introduced afresh. Such an officer might also undertake the management of public vaccination—see to providing proper lymph, attend to the Indian small-pox hospital, and generally advise the authorities on sanitary matters. The present small-pox hospital for whites we consider a disgrace to the community. Situated within ten yards of the general hospital, it has no separate nurses, is overcrowded when full, and it does not provide for the comfort of the patients who are liable, *volens, to be sent there.* Some provision should also be made to provide a vehicle for the special purpose of transporting patients to the Hospital, and care should be observed that the ordinary buggies that healthy people ride about in are not used, as it is stated they have been. Dr Jackson has endeavored to do his best, but the situation, furniture, etc., are disgraceful. Much better would it be to remove the hospital, as we long ago recommended, to the Female Building on Spring Ridge, and reserve the present building for the emergencies of an epidemic. The period for markish concealment is now past—and unless steps are taken vigorously to stamp out the disease, Victoria will become a city of the Plague.

Wm. Cleaver, Mel-roe, Scotland.

To spare our readers the trouble of referring to the files, we reproduce the remarkable letter signed 'A deC' which appeared in these columns on Saturday last:

PETITION TO REMOVE GOV. SEYMOUR.
EDITOR BRITISH COLONIST:—A petition has been put in circulation ostensibly to provide an excuse to enable Gov. Seymour to return to England to recruit his health, but really to remove him, and in his place to secure, as I am informed, the reappointment of Sir James Douglas. Now, sir, I am no warm admirer of Gov. Seymour or his policy as a statesman; but I cannot allow any such document as that alluded to to pass unnoticed, nor without warning the public against signing it. Much of the odium that attaches to Gov. Seymour's administration is a natural consequence of the acts of omission and commission of the administration of Sir James Douglas. It is needless to enter into details to prove this proposition, but it is nevertheless true. Whatever unpopularity there is justly connected with Gov. Seymour's Government cannot be cured by his removal. To remove the Governor will not reduce the Governor's salary nor rid the Colony of an unnecessary number of officials; nor curtail the extravagant salaries of those retained. What the public require is a change of the system of Government—such a change as will secure Representative Institutions and Responsible Government. Except we get those two principles established, all the changing of Governors imaginable will not improve the Executive and Government, nor make two blades of grass grow where one grew before. I, therefore, suggest to the public to refuse to sign the memorial in question.
A. deC.

In quoting the writer yesterday, we could not, for want of space, give more than the substance of his remarks, which we did in these words:

'The system of Government,' he writes, 'is at fault, not the Governors; and he deprecates any change until a new Constitution shall have been provided.'

We leave our readers to decide whether the 'extracts are garbled or bogus,' and whether we have not expressed from the letter the only construction which could be and was placed upon it. The letter is undoubtedly an endorsement of the present Executive by 'A deC,' written in a moment of strong excitement engendered by the mention of Sir James Douglas' name as Administrator. We do the writer the justice of saying that had he taken time to reflect he would not have committed himself and thus dimmed the lustre of a political career which many have been accustomed to regard as that of a consistent and useful public man. Whether the public will judge him as generously, remains to be seen; but we greatly fear that another act of indiscretion similar to his last would lay 'A deC' on the political shelf, there to remain for the balance of his natural life—a circumstance which none in the community would regret more sincerely than himself.

ASSAULT CASE.—Mr Wm Farron yesterday appeared before Mr Pemberton to answer to a charge of having tweaked the nasal protuberance and spat in the frontispiece of Mr W Hebbard, ex-Councillor. Hebbard stated that while walking down Yates street, one day last week, he heard his name called, and on turning in the direction from which the voice proceeded, his nose was grasped and violently tweaked. At first he regarded the assault as a good joke, but when, an instant afterwards, he felt a drop of saliva on his cheek, he discovered the true nature of the attack, and threw up his hands to guard his head from a blow which fell on his shoulder. He recognized Farron (who was defended by Mr Jackson) as the assaulting party. Farron pleaded guilty, and urged, in extenuation, that Hebbard had called him a 'turn-coat' and had said his property could be put under a hazel-nut. Hebbard denied having applied the term 'turncoat' to the defendant, and said the hazel-nut was a quotation from Farron's remarks a year ago. The bench decided to put Farron under bonds to keep the peace in \$300—himself in \$200, and one surety in \$100. Hebbard said he would feel safer if Farron were to furnish two securities instead of one. Farron—You mustn't think I'm going to pay \$300 for the privilege of whipping you.

DRAMATIC CLUB.—The meeting on Saturday night at the Boomerang was well attended. In addition to electing officers for the ensuing year, the club determined upon giving a performance as soon as the necessary arrangements can be made. It is not known yet for which of our public institutions the entertainment will be given. The officers for the ensuing year are as follows: Mr Burnaby, President; B P Griffin, Treasurer; J Barnett, Secretary; A R Howse, Stage Manager; L Franklin, Godfrey Brown, A Keast, W O Berkeley, Charles Good, Managing Committee. There will be a committee meeting again to night at the Boomerang for the completion of the preliminaries.

QUITE RIGHT.—A rumor was current yesterday that the schooner Discovery, which had returned from the wreck of the Del Norte, had the small-pox on board. The Mayor was immediately on the alert to have the vessel hauled out from the wharf. From subsequent inquiry, we find the report to be well founded, and commend the vigilance which has been shown in the case.

DEPARTURE.—The steamer G S Wright left for Portland yesterday morning with a cargo of coal and a few passengers.

PUBLIC MARKET.—A number of influential and thoroughly business gentlemen are exerting themselves to re-establish our public market—a great benefit to all classes, but at the same time a self-sustaining institution. Upon such terms no good citizen should withhold his support to the movement. The petition to the Government is now lying for signature at the Garrick's Head, Bastion street, and, it is to be hoped, it will be rapidly filled up.

FIRROE GALES.—The H B Co's steamer Otter returned from Puget Sound yesterday morning. The Del Norte having sunk in deep water, her errand was of course fruitless. The Otter reports terrific east gales for several days on the Sound, during the prevalence of which navigation was impeded. The steamer Eliza Anderson left 26 hours under Point Wilson, unable to reach Port Townsend owing to the severity of the gale.

Too BAD.—An enthusiastic individual yesterday sat out heartily of Haywoods sausages, more, probably, than the three links recommended, and his hair turned, not black, but basally grey. On arriving at home his wife did not recognize him, and drove him from the house as an impostor. For this drubbing, it is said, he intends suing the Colonist.

St John's School House.—The collections from the sermons on Sunday last by the Bishop of the Diocese and the Rector of St Johns, in behalf of the Building Fund, amounted altogether to \$70. The building is now being plastered, and if nothing intervenes to render a postponement necessary, the inaugural concert, by the St John's Choral Society, will be given in it on the 1st prox.

It is reported to us that the 'Sound' country is the chief topic of conversation in Portland. Many declare that they would sell out if they could, for they are convinced of the future greatness of this country. Others are settling up their business in that city with the view of coming here.—Seattle Intelligencer.

A shower of brilliant meteors fell in this vicinity on Friday night and Saturday morning last. The shower continued until daylight and was the most extensive yet observed here.

THE WINKS, which have been down for a week on San Juan Island, were yesterday repaired; but a section between Seattle and Swinemish remains to be reconstructed before communication south will be re-established.

ARRIVED.—The bark Mauna Loa, arrived at Esquimalt, yesterday, laden with lumber for the Sandwich Islands, whither she will proceed without delay.

AN Executive Council was held yesterday, His Excellency the Governor presiding.

WANTED.—Fifteen thousand of Hibben's Pacific Rail Road men for the consumption of Heywood's celebrated Pork Sausage, the Ellixir of Life. It has been admitted by all the Medical Students of the Theatre Royal that Heywood's Pork Sausage is the only safe and sure remedy for all prevailing complaints. Three links fried nicely brown and taken internally every morning for breakfast will relieve hunger and restore the hair to its natural color. These unequalled and remarkable sausages are kept at all respectable first class Hotels, Restaurants and Boarding houses. Go in, if you want black hair.

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex 'Bolivia'—T. N. Hibben & Co.

TWO MEN BLINDED BY AN EXPLOSION.—NINE DAYS WITHOUT FOOD.—The Wabasha (Minn.) Herald of Aug 20, says:—By a letter from Mr Harris, formerly of this place, we learn the particulars of a remarkable case of suffering at Vermilion. Two men, Norman and Peterson, were employed by the Wabasha Gold and Silver Mining Company to drive a drift on Pine Island, where this Company has a very rich vein. They worked on the island alone, the principal operations of the miners being on the main land. One day they fired the fuse to a big blast, and after waiting a long time, found that the liquid fuse had become extinguished, and at once set themselves to work to drill out the blast, using water freely. Mr Norman was an old and experienced miner and feared no mishaps, taking, as he thought, sufficient pains to prevent an explosion; but, by some means, in some strange manner, the blast was lighted while they were at work. Two fingers were torn from one of Norman's hands and the drill driven through the wrist of the other arm, and both men were blinded by the explosion. Nine days after this a party went over to the island from the mainland, and finding blood around the spot where the ill-fated men had been at work, they became alarmed, searched vigorously, and finally found them. They had been without food since the accident; Norman's hand and wrist were alive with maggots, and in the eyes of both of these terribly smitten men these loathsome crawling things were so embedded, that they had to be pulled out with pinners. The utmost kindness and care in the power of the miners was bestowed on the wounded men, and Norman was sent down to Superior for treatment, while Peterson remained in camp. Loss of blood saved the men from the ravages of a terrible appetite, while both must have been possessed of iron constitutions to have enabled them to survive those terrible nine days.

A NEW story of Robert Hall is going the rounds of the English papers, to the effect that one of his congregation took him to task for not preaching more frequently on predestination. Hall was very indignant. He looked steadily at his censor for a moment and replied:—'Sir, I perceive you are predestinated to be an ass; and what is more, I see that you are determined to make your calling and election sure.'

'A deC' and the Governor.

Victoria, March 15th, 1868.

EDITOR BRITISH COLONIST:—Most of Mr DeCosmo's opinions on public matters have appeared to me unsound; but I have never read anything in your journal from his or any other pen that has struck me as so devoid of reason as the letter in Saturday's Colonist, signed 'A deC,' which I take to be the initials of our late Representative in the Legislative Council. In the first place I should be glad to know what part of the odium attaching to Governor Seymour Sir James Douglas is accountable for? The charges brought against Mr Seymour are that he does not use the great power entrusted to him with judgment. That in a struggling overtaxed community due care is not taken to prevent wasteful expenditure. That whereas, soon after his second advent, he clearly led the Colony to expect some return towards Representative Government at an early period, no movement or indication of any movement has yet been made in that direction; that there has been an absence of frankness and straightforwardness in his acts and correspondence—and that he has shown a general unfitness of disposition and of talent for the post he occupies. For what of all this is Sir James Douglas responsible? Your correspondent next asserts that 'Governor Seymour's unpopularity would not be cured by his removal.' On this point hardly another man in the Colony will agree with 'A deC.' So far as I know, the Governor's most inveterate opponents have no ill feeling towards Mr Seymour personally. My own impression, and I believe the general one, is that in private life Mr Seymour is a most amiable and worthy man, making it a matter of greater regret that he should continue to hold a position for which he is so unsuited, and where his shortcomings excite the enmity of citizens, and the derision of strangers. Then 'A deC' says that 'a change of Governors would not decrease the number of officials nor the amount of their salaries.' Certainly not, if the new Governor should so will; but is it not probable that the successor of an officer, removed on account of extravagance, would incline to economy wherever economy could be combined with efficiency? It may be true that 'we want Representative Institutions'; but it is equally true that we once had them, and that they did not altogether agree with us. It is my humble opinion that with a good Governor, our present form of government is as good, perhaps better, than any we have yet tried—though certainly with a bad Governor we could scarcely have a worse system. We have made several attempts, more or less futile, to change the form of our government without success, because Governor Seymour, having the power, has also had the will to prevent. Then what course more obvious than to change the Governor? We could hardly lose by the change—the chances are infinitely in our favor, for though the selection of the Governor might not be left with us, our well understood wishes would have weight.

Taking this view of the case, I sometime since, over the signature of 'A British Colonist,' suggested an appeal to the Home Government for the recall of Governor Seymour. Intending to draw up such a petition, I broached the subject to several citizens, not one of whom but favored the plan and spoke of Governor Seymour as the great stumbling-block to the progress of the Colony. But when asked to sign—one would say 'but you see, I sometimes meet the Governor in private life, and it would not do, you know.' Another 'could not afford to displease the Governor.' Still another 'thought every one should sign—would himself—but was about to apply,' etc. And so on—and so the scheme ended, but not the discontent. I had given up all idea of further action in the matter, when, on Friday last, the petition which has brought 'A deC' once more into print, was placed in my hands. This petition, after expressions of regret at Governor Seymour's infirmities, prays that His Excellency will delegate his powers, so that he may avail himself of the most efficacious of restoratives, change of air, of scene and of occupation. Sir James Douglas is mentioned as possessing the confidence of the people; as having a large material interest in the Colony; and as having already administered the Government with success. Here, I thought, is what no one can object to sign; but it appears that there are many palates to please—the first petition was too strong for some, this too weak for others; and the amount of interest felt in the welfare of the Colony so small that no remedy will be taken except the dose be of the exact strength and exact flavor to suit the whim of each. We have been told that we are slaves—and so it seems we are, willing slaves—for with the keys of our fetters within reach, we will not take the trouble to use them. If our chains are so pleasant to wear let us at least carry them with grace, and cease to murmur at their weight.

EDITOR BRITISH COLONIST:—In your leader in yesterday's issue, you attribute certain motives to me as the reason why I protested against the petition put in circulation to effect the removal of Governor Seymour. It also contains sentences and parts of sentences, either included in quotation marks or so connected and stated as to imply that they were extracted from my brief communication in your issue of the 14th inst. As the motives attributed to me are unfounded and as the extracts are either garbled or bogus, I will thank you if you will publish this note, with the heading that I have placed over it.

DELATED DISPATCHES.

Eastern States.

CHICAGO, Nov 14.—The Post's Washington special says:—The British Government has conceded the point at issue in the San Juan business by agreeing to withdraw the joint occupancy of that Island. This gives the United States control of Puerto Rico and one of the best harbors between Sitka and San Francisco.

NEW YORK, Nov 14.—A private letter from a prominent insurgent in Cuba states that the Revolutionary Junta of Havana have sworn to destroy the property of every individual who shall, over his signature, offer his life, or wealth, or protection in favor of the Government.

RECRUITING for the Cuban expedition, it is said, has ceased in this city. Colonel Gibbons having already enrolled 6500, which is 1500 more than he wants. He allows that the whole command is to devolve upon a wealthy Havana veteran, a military leader under Don Carlos and Maximilian, who so far has furnished all the funds necessary. The intention is to annex Cuba to the United States. A public meeting is to be held in the Cooper Institute.

CHICAGO, Nov 9.—The storm east has interrupted communication with New York. The opinion of the most influential bankers seems to be that the stringency in money results from a political combination, and that McCulloch will do all that is possible to relieve the pressure among legitimate dealers.

California.

SAN FRANCISCO, Nov 13.—Leading lawyers and merchants have petitioned the Board of Supervisors not to rebuild the City Hall but to sell the entire property and build on the Plaza.

Sailed.—Bark Moneynick for Seattle; barkentine Fremont for Seabeck. Flour—Oregon brands, extra, \$5 75. Wheat—Fair \$1 65 @ 1 70; choice \$1 70. Barley—\$2 00 @ 2 10 for feed; brewing \$2 15 @ 2 25.

SAN FRANCISCO, Nov 15.—Gold closed in New York at 134. Legal Tenders—Buying 73; selling 73 3/4.

Oregon.

PORTLAND, Nov 10.—The Republicans held a jubilee on Saturday night. Illuminations, fireworks, torchlight procession, &c. It was an enthusiastic demonstration.

Reports from Eastern Oregon give the following Democratic majorities: Baker County, 242; Union 307; Umatilla, 198; Grant County probably 12; which indicates that the State has gone over to Seymour by about 200.

Europe.

MADRID, Nov 7.—A correspondent writes that the Provisional Government of Spain will entertain no proposal from the United States looking to the purchase of Cuba.

UPON the advice of the General of the Army, the Provisional Government will dispatch 9000 soldiers, with authority to suppress the insurrection in Cuba.

LONDON, Nov 8.—Dispatches from Italy report that the Papal army continues to be decreased by desertions. CORK, Nov 10.—A great popular demonstration took place here on the occasion of the funeral of James Mountain, supposed to have held a position in the Fenian organization. A procession of 6,000 followed the remains to the grave. Mountain formerly resided in the United States.

LONDON, Nov 10.—In the case of Miss L Becker, the Court of Common Pleas rendered a decision in which all the Judges concur, that the Common Law of England gives women no right to vote.

Mexico.

NEW YORK, Nov 6.—Mexican news says the confessions of Maximilian had arrived in Mexico, bringing diamonds, crosses and other presents from the Emperor of Austria to the Mexican lawyers who defended the late Emperor on his trial before the Court-martial.

Navigation of the Rhine—Negotiations with Holland.

(From Gallien's Messenger of Paris, Sept 8.)

The rupture of the negotiations between Prussia and Holland relative to the navigation of the Rhine appears to have caused some alarm in Berlin, where the determination shown by the Dutch government in the matter is attributed to its being secretly supported by France. The point in dispute is whether the new convention which it is proposed to establish in place of those now in existence is to apply to the whole of the river and its tributaries, or only to the streams on either side of Gorkum and Dordrecht. The Dutch government considers that as the Merwe and the Muse are part of Holland, the navigation of those rivers ought to be under its exclusive control. This view is opposed on behalf of the Zollverein, by Prussia, who appeals to the last convention on the subject (that of 1831) and the Treaty of Vienna, which stipulates that the navigation of the Rhine shall be free up to the sea. As this is the first occasion on which Prussia has acted as the representative of the Zollverein it is believed that she will not allow the matter to drop, but make further and more urgent representations to Holland on the subject.

Death of Madame Hugo.

(From the Dublin Evening Mail, Aug. 29.)

Madame Victor Hugo had arrived in Brussels from Paris, where she had been staying some months in the hope of obtaining relief from a malady from which she had been long suffering. On Tuesday afternoon, without any premonitory symptoms, she was seized with an attack of congestion of the brain, from which she never recovered. She was insensible almost from the seizure till her death, which took place between six and seven o'clock yesterday morning. The deceased lady had expressed a wish to be buried at Villequier, in France, in the same grave as that in which her daughter Leopoldine was interred twenty-five years ago. This wish will be respected and M. Hugo and his sons Charles and Francis will accompany the remains to the French frontier, but no farther.

HOLLOWAY'S OINTMENT AND PILLS.—Outward infirmities.—Before the discovery of these remedies many cases of sores, ulcers, &c., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to exacerbate the symptoms it was inadequate to remove. Holloway's Pills effect the most wholesome powers over the unhealthy flesh or skin, without debarring the patient from fresh air and exercise, and thus the constitutional vigor is husbanded while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood richer and purer, instead of permitting it to fall into that poor and watery state so fatal to many labouring under chronic ulcerations.

Disraeli's Baptism as a Christian.

Last week, says the London Express, a correspondent of the Churchman's Family Newspaper expressed a doubt whether the Premier had ever been baptized. The following authenticated document sets these doubts at rest, and we gladly publish it for the satisfaction of all whom it may concern:—

Parish of St. Andrew's Holborn, in the city of London and in the county of Middlesex:—Extract from the Register Book of Baptisms, page 80. Baptized July 31, 1817, Benjamin, said to be about twelve years old, son of Isaac and Maria Disraeli, King's road, gentleman. Ceremony performed by S. Thimbleby, No. 633.

The above is a true extract from the Register book of Baptisms kept in the parish Registry. Witness my hand this 8th day of September, in the year 1868. A. J. ROSS, Lecturer.

Sober Facts for Thinking People.

Year after year, for an eighth of a century, the Press of the country has chronicled the beneficial effects of HOSTETTER'S STOMACH BITTERS. Editors, authors, physicians, merchants, officers of the army and navy, chemists, counselors, ministers of the gospel, in short, a great cloud of witnesses of every profession, trade and calling, have testified to its efficacy as a tonic and regulating medicine. The names and statements of these witnesses have been published in the public prints. Many of them are well known to the whole public. Their testimony has never been challenged or impugned. Upon evidence far less weighty men are acquitted or condemned by conscientious juries.

HOSTETTER'S STOMACH BITTERS is not, however, upon trial. It has been tried and pronounced on the authority of those whose health and life has been preserved, a pure, harmless, and eminently salutary preparation. Attempts have been made to rival it. They have failed. Can it be necessary to say why they have failed? Ask the recovered dyspeptics, bilious sufferers, victims of fever and ague, and nervous subjects who have experienced its effects, what they think of it. ASK THEM and be guided solely by what they say. Sold everywhere.

OF THE

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious Remittent Fevers. Fortifies the System against Malaria and the effects of unwholesome water; invigorates the organs of digestion and the bowels.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Champs and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Loss of Sleep, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvellous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the constipation superinduced by irregular action of the digestive and secretory organs.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease, and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DUBUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis, Gastralgia, Long and Laborious Digestion, Wind in the Stomach and Bowels, Emaciation, Jaundice, and Complaints of the Liver & Lungs

NERVOUS HEADACHE, NEURALGIA, DIARRHOEA, DYSENTERY, INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazil has been employed since time immemorial to cure Inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhoea.

NO MORE COPAIBA OR CUBERS!

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These are rapid and extraordinary cures of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr. Ricard, and found greatly superior to all hitherto known mineral remedies and Copal and Cubeb. The Injection is used in recent, and capsules more chronic cases.

TO THE UNFORTUNATE NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis, in all its forms, Seminal weakness, Impotency, etc. Skin diseases (of years standing) and Ulcerated Legs successfully treated.

Dr. Gibbon has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Lomb. Place, Pad.; Lock, Harrow street; University, Lower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street.

Dr. Gibbon has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out an almost unmitigated existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pale, downy countenances, their disfigured faces, and their broken constitutions, disqualifying them from the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to these cases, who are suffering with any of these horrible, life-destroying maladies—see that they are cured, and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unmitigated extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, weakness about the loins, weakness of the limbs, confused vision, loss of intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, red tongue, hot breath, coughs, consumption, night sweats, mania and frequent insanity. It is not to be obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them not to delay to obtain immediate relief.

Dr. Gibbon is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from duty and curiosity, to any part of the country, with full and plain directions for use. By enclosing \$10 in currency or \$10 in coin, in a registered letter through the Post office, or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast. Address Dr. J. E. Gibbon, 616 Kearney street, corner Commercial, San Francisco—Post office ex 262.

Remember to put BOX 262 on the letter.

Consultations FREE.

Correspondents will please inform Dr. Gibbon that they read his advertisement in the British Colonist.
